📍 Malaybalay City, Bukidnon, Philippines ✉ noelratertajr@gmail.com ☎ 0969-067-3159

SUMMARY

Full Stack Developer experienced in building web applications with Next.js, Laravel, and modern JavaScript frameworks. Skilled in database management (MySQL, Supabase) and process automation. Committed to delivering scalable, high-performance solutions.

EXPERIENCE

Automation, CRM, Analytics, and Website Tools Practice

Automation, CRM, Analytics, and Website Tools Practice

January 2024 - Present

- Automated business processes using n8n workflows, increasing operational efficiency for lead management and task routing.
- Leveraged Zoho CRM and Google Analytics to deliver actionable insights on user engagement and conversion metrics.
- Managed professional web presence for clients via Squarespace, optimizing layouts for brand alignment and SEO performance.

Web Developer

Freelance Developer

January 2023 - Present

- Developed 4 custom web applications for diverse clients, including platforms for bookkeeping and plumbing services, using a tech stack of Next.js, Laravel, PHP, and Supabase.
- Reduced client site maintenance overhead by migrating legacy layouts to modern, responsive frameworks like Next.js and Laravel, resulting in improved site performance.
- Integrated third-party APIs and databases (MySQL, Supabase) to build secure authentication and backend-driven platforms for small-scale business operations.
- Engineered API integrations for five client-facing platforms over 12 months, automating data exchange between Next.js/Laravel frontends and MySQL/Supabase backends, resulting in 30% faster onboarding and enhanced transactional reliability.

Intern - Technical Support and Web Development

Provincial ICT Division (PICTD) Bukidnon

February 2026 - May 2026, Malaybalay City

- Assisted in full-stack development tasks using Angular, NestJS, ORM, and MySQL for inventory and HRMIS-related systems.
- Supported network operations including DNS setup, reverse proxy configuration, IP reassignment, VLAN basics, UTP crimping, LAN repair, switch troubleshooting, and speed testing.
- Performed IT support tasks such as printer sharing fixes, eTRACS installation, device configuration, software troubleshooting, ICT inventory encoding, and workstation maintenance.
- Prepared CCTV, cabinet, and command center layout documentation for infrastructure planning and office monitoring support.

- Documented CCTV, cabinet, and command center layouts, creating comprehensive infrastructure plans and supporting office monitoring operations.
-

EDUCATION

Bachelor of Science in Information Technology

Bukidnon State University • Bukidnon • 2022 – 2026

CERTIFICATIONS

CCNA: Switching, Routing, and Wireless Essentials; Cisco Cybersecurity

AWARDS & HONORS

Hack4Gov Region X | First Runner-Up

Bukidnon • 2025

- Contributed to a team-based cybersecurity and solution-development challenge involving problem analysis, collaboration, and presentation.
-
